

# A Better Bed

Looking for a refresh? Rest and recharge in one of these *ultracozy* bedding combinations—all from the dreamy BHG line at Walmart. You'll thank yourself in the morning.

## STYLING TIP

For a plush-looking bed, fold back the layers so you can see them all (versus pulling the comforter all the way to the headboard). It also helps the bed appear fuller and fluffier.

## Time for turndown service

Curating a stylish bedding set is easy (and affordable) thanks to these foolproof combinations that look as good as they feel.
